

495 - Department of Agriculture

A001 Agency Administration

This activity provides executive leadership, policy development and review, financial services, computer and information technology services, personnel services, homeland security, communications, administrative procedures guidance, legal services, and safety and emergency management programs for the department's 25 programs. The budget amounts for this activity are the overhead component of agency administrative costs.

	FY 2006	FY 2007	Biennial Total
FTE's:	44.6	44.6	44.6
GFS:	\$1,618,000	\$1,528,000	\$3,146,000
Other:	\$2,775,000	\$2,907,000	\$5,682,000
Total:	\$4,393,000	\$4,435,000	\$8,828,000

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Regulate the economy to ensure fairness, security and efficiency

Expected Results

The outputs generated from agency administration activities contribute to and support the outcomes and results of the department's activities. The following is a specific measure related to risk management: 100 percent of agency managers complete HELP Academy modules by June 2007.

A002 Agricultural Fairs

The fairs program provides about \$2 million in financial assistance to agricultural fairs and youth shows each year. The director of the Department of Agriculture appoints a seven-member Fairs Commission to recommend fund allocations to participating fairs. This program coordinates the activities of the commission, audits all required reports and information from participating fairs, and verifies that fairs operate in compliance with state law. Currently, 70 fairs participate in the fairs program. (Fair Account-Nonappropriated)

	FY 2006	FY 2007	Biennial Total
FTE's:	2.0	2.0	2.0

Total:	\$2,153,000	\$2,157,000	\$4,310,000

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Participating agricultural fairs receive annual allocations from the Fair Fund in accordance with state law and/or the merit rating established by the department.

A003 Agricultural Promotion and Protection

This activity provides funding for bio-energy coordination, the "From the Heart of Washington" campaign, and other activities that promote the sale of food and agricultural products produced in the state. It also includes moneys appropriated for specific projects that assist the state's agricultural industry.

	FY 2006	FY 2007	Biennial Total

Total	\$3,043,000	\$2,744,000	\$5,787,000

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Promote sales of Washington agricultural products and understanding of the importance of Washington agriculture through the "From the Heart of Washington" program.

A004 Animal Health

The Animal Health program protects animals and the public from communicable animal diseases, such as brucellosis, tuberculosis, E. coli 0157:H7, salmonella (various types), rabies, Hantavirus, and others. To prevent such diseases from entering the state, the program monitors the movement of animals across state lines by inspecting animals, issuing or denying impact permits, and monitoring mandatory health certificates for all animals entering the state. The program is responsible for emergency management planning to ensure the state is prepared to trace back and control introduced foreign animal diseases. It cooperates with universities, the U.S. Department of Agriculture, and others to collect samples and data.

Total	\$1,441,000	\$1,361,000	\$2,802,000

Statewide Result Area: Improve the health of Washingtonians

Statewide Strategy: Identify and mitigate health risk factors

Expected Results

Maintain Washington State's disease-free classifications for bovine brucellosis; bovine tuberculosis; swine brucellosis; swine pseudorabies; and S. pullorum-typhoid.

A005 Chemistry Laboratory

The chemistry laboratory in Yakima supports department programs by analyzing samples taken in investigations of alleged pesticide misuse, monitoring for pesticide residues in foods, and determining if commercial feed and fertilizer samples meet label guarantees. These activities are funded by a mix of state, federal, and local funds. The laboratory also participates in a federally-funded program for monitoring pesticide residue levels in fruits, vegetables, and other commodities, and performs fee-for-service chemical analysis for the hop industry. (Agricultural Local Account-Nonappropriated)

Total	\$1,762,000	\$1,712,000	\$3,474,000

Statewide Result Area: Improve the health of Washingtonians

Statewide Strategy: Identify and mitigate health risk factors

Expected Results

100 percent of chemical analyses are provided within pre-established timeframes following standard analytical procedures.

A006 Commission Merchants

The Commission Merchants program protects agricultural producers against theft, fraud, and unfair business practices by licensing persons and businesses involved in buying and selling agricultural products. Licensees who purchase or handle agricultural products on consignment must be bonded. Funded by license fees, the program investigates producer complaints against commission merchants and cooperates with federal, state, and local law enforcement agencies. Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Provide consumer protection

Expected Results

90 percent of violators correct violations specified on Warning Notices within 30 days. 90 percent of case investigations are closed within 120 days of filing.

A007 Commodity Commissions

This program administers agency responsibilities related to the state's 24 agricultural commodity commissions. Each commission is funded by producers and engages primarily in marketing and/or research related to its specific commodity. The director of Agriculture is a board member of each commission. The program reviews and approves commission programs and budgets; supervises or coordinates the nomination, election, or appointment of commission members; and oversees the issuance, amendment, or termination of commission marketing orders.

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Complete budget and program reviews for each agricultural commodity commission.

A008 Feed Regulation

The Commercial Feed program regulates the distribution of animal feeds to ensure product identity, quality, and proper labeling. It registers and reviews labels of more than 2,000 pet food products, and licenses about 500 manufacturers and initial distributors of other animal feed products. It inspects feed mills for compliance with good manufacturing practices, and also analyzes feed samples to determine accuracy of label guarantees. The program is funded primarily by fees paid by the feed industry. (Agricultural Local Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Provide consumer protection

Expected Results

100 percent of registered feed products inspected are properly labeled and meet standards, or have action taken against them.

A009 Fertilizer Regulation

This program licenses 2,500 fertilizer products for distribution in the state, and analyzes fertilizer samples to verify label guarantees for plant nutrients and to ensure that heavy metal content does not exceed state standards. It inspects fertilizer facilities and irrigation systems to ensure required safeguards are in place to prevent ground water and surface water contamination. The program is funded entirely by fees paid by the fertilizer industry. (Agricultural Local Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Provide consumer protection

Expected Results

100 percent of registered fertilizer products inspected are properly labeled and meet standards, or have action taken against them.

A010 Food Safety

This program protects the public from injury and illness caused by food products that are contaminated, adulterated, or otherwise unfit for consumption. This is accomplished through surveillance, regulation, and inspection of the dairy, egg, food processing, and storage industries. Inspectors examine facilities for product adulteration, cleanliness, evidence of rodent infestation, potential for cross contamination with chemicals and toxic materials, appropriate holding temperatures, and sanitary preparation techniques. Staff members conduct 13,000 inspections and tests each year. It is funded by the state General Fund, federal funds, and fees paid by food processors, food storage warehouses, milk processors, and the egg industry. (General Fund-State, General Fund-Federal, Agricultural Local Account-Nonappropriated)

A011 Fruit and Vegetable Inspection

This program provides inspection services to the fresh produce and processing industry to ensure orderly marketing of fruits and vegetables. Commodities are inspected for quality, size, labeling, condition, and contract specifications, and may be certified as free from disease and insects as required by domestic and international markets. These services are provided through district offices in Yakima and Wenatchee and ten field offices throughout the state. This is a self-supporting, fee-for-service program. (Agricultural Local Account-Nonappropriated, Fruit and Vegetable Inspection Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Reduce by at least 50 percent the number of fruit shipments (primarily apple and pear) rejected or delayed at the Mexican border because of errors by state or industry personnel on phytosanitary certificates. This raises the accuracy rate from 99.0 percent to 99.5 percent. Increase the volume of commodities shipped using the web-based certificate of compliance program to 70 percent.

A012 Grain Inspection

Appropriation Period: 2005-07 Activity Version: 2E - Agency recast for 06 supplemental

This program provides inspection and analytical and weighing services to ensure orderly commerce for grain, dry peas, dry beans, lentils, rapeseed, and similar commodities sold in or from Washington. These services are offered at eight inspection facilities throughout the state. The program is funded by fees, and as required by federal law, provides service 24 hours a day, seven days a week, upon request. (Grain Inspection Revolving Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

100 percent of certificates issued by the close of the next regular business day after the inspection service is completed. 100 percent of review inspections validate original grade inspection accuracy.

Note: Based on grade agreement of original, compared to review inspection results.

A013 Grain Warehouse Audit

The Grain Warehouse Audit program protects grain producers from undue losses by licensing, bonding, and auditing warehouses and dealers. Funded by license fees, the program audits grain storage warehouses and grain dealers to assure producers and depositors that licensees are meeting storage requirements and other contractual obligations. (Agricultural Local Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals

Statewide Strategy: Provide consumer protection

Expected Results

95 percent of audits demonstrate that company records accurately represent the physical inventory of commodities. 100 percent of licensees maintain the appropriate level of bonding.

A014 Hop Inspection

Appropriation Period: 2005-07 Activity Version: 2E - Agency recast for 06 supplemental

This program performs physical grading and chemical analysis of the Washington hop crop (75 percent of the nation's supply) and a significant portion of Oregon and Canadian crops to ensure orderly international and domestic marketing. This is a self-supporting program that is funded by fees paid by hop producers and dealers for requested services. (Agricultural Local Account-Nonappropriated)

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Maintain USDA, FGIS certification of individual staff necessary for hop grading. Process hop export document requests within 24 hours.

A015 Marketing and Economic Development

This program assists food and agricultural companies in selling their products internationally. It contracts with trade representatives in the major markets of Japan, Taiwan, China, and southeast Asia to assist state businesses with export transactions and market development. It offers one-on-one assistance to export-ready businesses; organizes and leads companies on trade missions and to major trade shows; and develops and distributes information to buyers on the state's agricultural suppliers. The program also coordinates the department's economic development and domestic marketing efforts. The program works closely with commodity commissions and the Office of the Governor's trade representative to fight trade barriers that prevent or limit overseas market access for Washington's agricultural and food products.

A016 Livestock Identification

This program maintains the official recordings of more than 6,000 livestock brands. As a theft prevention measure, cattle and horses are inspected for brands or other proof of ownership at public livestock markets, slaughter plants, and prior to moving out of state. Cattle are also inspected at certified feed lots and at any change of ownership. Approximately 550,000 cattle and 15,000 horses are inspected annually. The program licenses and bonds public livestock markets to ensure proper payment for cattle, and also licenses and audits certified feed lots to verify inspection certificates for slaughtered cattle. This program is funded through fees paid by the livestock industry. (Agricultural Local Account-Nonappropriated)

A018 Microbiology Laboratory

The microbiology laboratory located in Olympia supports the department's Food Safety program by testing food and dairy products for food poisoning organisms and by examining food products for contamination by insects, rodents, or filth. The laboratory also tests dairy products for quality and to meet requirements for the interstate shipment of milk. Laboratory staff members inspect and certify commercial and dairy industry laboratories which perform officially sanctioned dairy microbiology. It also supports the agency's Animal Health program by testing animal blood and tissue for disease.

Conduct 90 percent of the Brucellosis serology testing within one working day of receipt of specimen, except Brucellosis CF which will be done within five working days. Complete 80 percent of food testing for pH and water activity or the three major pathogens (*Listeria monocytogenes*, *Salmonella* sp., *E. coli* 0157:H7) where "no pathogens found," within five working days of set-up.

A019 Nursery Inspection

Appropriation Period: 2005-07 Activity Version: 2E - Agency recast for 06 supplemental

This program inspects nurseries to ensure that consumers and the nursery industry are provided healthy, pest-free, and disease-free plant materials. The program enforces agricultural quarantines to prevent pest introduction and, on request, provides inspection services to certify that Washington nursery stock and plant materials are free from disease and insects, as required by domestic and international markets. The program is funded by license fees paid by nursery dealers and fees paid for requested inspections. (Agricultural Local Account-Nonappropriated)

Statewide Result Area: Improve the economic vitality of businesses and individuals
Statewide Strategy: Provide consumer protection

Expected Results

Inspect 90 percent of licensed wholesale nursery facilities once each year.

A020 Organic Food Certification

The Organic Food program protects consumers and supports the organic food industry by ensuring that all food products making organic claims meet state standards for organic production and labeling. It inspects, certifies, and provides technical assistance to more than 850 organic producers, processors, and handlers. The program is funded by fees paid by the organic industry. Expected Results

95 percent of inspection reports and sample results are accurately responded to within 45 days of inspection.

A021 Pesticide Regulation

Appropriation Period: 2005-07 Activity Version: 2E - Agency recast for 06 supplemental

The pesticide program regulates the sale and use of pesticides in Washington. It investigates complaints of pesticide misuse, conducts field inspections of pesticide manufacturers and applicators, and provides technical assistance to pesticide users. It annually reviews and registers more than 8,000 pesticide products for use in the state. It licenses and administers a continuing education program for more than 25,000 pesticide applicators, dealers and consultants, and oversees a program to train Spanish-speaking farm workers in the safe and legal use of pesticides. It administers the waste pesticide program which disposes of canceled, suspended, or unusable pesticides. It also protects resources such as ground water from pesticide or fertilizer contamination and conducts selected surface water monitoring as part of a program to evaluate and mitigate the impact of pesticides on threatened or endangered species.

A022 Plant Protection

The Plant Protection program protects the state's resources by preventing the establishment of high-risk insects, plant diseases, and weeds. Staff members conduct surveys and inspections, disseminate information, enforce agricultural quarantines, provide laboratory diagnostic services, review and permit the release of certain insects and exotic plant pathogens, and carry out projects to eradicate pests. The program coordinates statewide efforts to control purple loosestrife and to eradicate spartina, both non-native aquatic weeds, and to control Japanese knotweed. It works with the State Noxious Weed Control Board and is responsible for noxious weed control in counties without weed boards.

A023 Planting Stock Certification

The Planting Stock Certification program provides testing and inspection services to ensure disease-free planting stock for various agricultural industries. Voluntary certification programs are currently provided for fruit trees and related ornamentals, seed potatoes, hops, grapes, mint, garlic, and strawberries. This is a self-supporting, fee-for-service program. (Agricultural Local Account-Nonappropriated)

Statewide Strategy: Develop markets by promoting Washington products and services

Expected Results

Appropriation Period: 2005-07 Activity Version: 2E - Agency recast for 06 supplemental

Improve the quality of certified planting stock by reducing the amount of infected registered plants (fruit trees, grapevines, strawberries, and hops) by 20 percent.

A025 Seed Inspection/Certification

This program conducts pre-harvest field inspections and laboratory testing of agricultural, vegetable, and flower seeds grown under the seed certification program. It tests seed samples submitted by seed growers and companies to determine compliance with purity and germination standards and to certify seed for domestic and international marketing. It also operates the only official seed testing laboratory in the state. This is a self-supporting, fee-for-service program. (Agricultural Local Account-Nonappropriated)

A027 Weights and Measures Inspection

This program regulates the use and accuracy of all commercial weighing, measuring, and counting devices, including gas pumps, grocery store scale systems, price scanners, vehicle-tank meters, and liquid petroleum gas measuring devices. Staff inspect and test devices for accuracy and suitability for service and inspect packaged commodities for correct content (net weight, volume or count), labeling, and pricing. The program monitors motor fuel quality by analyzing fuel samples for octane, oxygenate, and other product quality factors. The program also operates the state metrology laboratory and provides calibration services to businesses, laboratories, and government entities.
